## THE STORY BEHIND THE SITE

[saltyvixenstories.com](http://saltyvixenstories.com) was "officially" launched May 2022. I started have been a published author for over 6 years and I write erotica & poetry. I began writing erotica after my divorce. When a divorce from any relationship happens (married or not), emotions are all over the place and for me to center my emotions was always through writing. It has been proven that most erotica writers either enjoy the art or they were in a bad relationship (abused, sexually assaulted or more).

I was sexually assaulted in England 18 June 2004, that was the first time I used the words "Vixen in a Salty Situation" and later, my marriage, was abusive. When I got out of it, I grew as a person. (the full personal story why I created Salty Vixen is located here). I turned Vixen in a Salty Situation into positive and thus I became Salty Vixen.

When I began dating, I used dating apps and I have had a lot of Red Flags. These Red Flags I talk about it on here, [saltyvixenstories.com](http://saltyvixenstories.com) and also on my S-Spot with Salty Vixen Podcast. I wanted to create an awareness. Eventually my blog grew into what it is today "Salty Vixen Stories & More"

The main purpose of the site was to become a source of support and encouragement in the growing area of online relationships.

Readers find a mix of [saltyvixenstories.com](http://saltyvixenstories.com) original content to help meet their relationship needs and the 'fun' stuff, the Loverotica (erotic stories-non audio) and Bedtime Stories with Salty Vixen (audio erotica). [saltyvixenstories.com](http://saltyvixenstories.com) goal is a place to help save countless marriages, re-spark failed relationships, help singles find their way to love and has been a constant source of encouragement to millions of hopeless romantics.

I was asked if I will ever stop writing my 'loverotica' (non audio) stories my audio erotica as my site continues to grow? The answer is no. Magazines back in the 1990s and before always had 'erotica' stories published, along with love, sex & relationship advice. Sex is healthy. Sex stories are healthy. My site, is 'old school' and I want to keep it that way.

I will always keep this site free. There are no membership fees.

## About Salty Vixen Stories & More

Romance is alive and kicking! Today's generation of couples and singles are a new breed. Many have experienced love at its worse before ever leaving home, mostly through their parent's divorce or separation. This has spurred a new, stronger desire to make their own relationships work. Unfortunately, couples and singles are also faced with larger obstacles than previous generations.

Divorce rates continually rise, affairs seem to have become second nature and both social media & the Internet, while a new way to find love, can also be the most damaging to some relationships. Even with these love-traps, maybe even because of them, the pursuit of a true happily ever after has reached an all time high. One thing does remain true though; the state of romance is changing.

### **Long distance relationships are on the rise**

LDR's are popular! And they continue to go on the rise. A source for encouragement, strength, support and new ideas to keep the romance alive through the many miles that may be separating them is now more important than ever.

### **Age gap romances are more widely acceptable**

Public opinion towards relationships with older woman/younger men and visa versa are changing, and changing quickly. Whether it has to do with more celebrity May/December relationships, movies on the subject or just a general agreement, one fact remains: love has truly become ageless.

### **Online dating at an all time new high**

In a [saltyvixenstories.com](http://saltyvixenstories.com) poll, 2,964 visitors were asked, "Have you ever fallen in love with someone you met online?" 78% answered yes! With the stigma of meeting someone online gone, dating Apps have consistently remained some of the highest traffic sites online. With so many online matches, the quest to keep these burning romances hot has grown enormously. In addition, solid and practical advice for finding Mr. or Miss Right among the ever growing sea of choices is more important than ever.

I have "S Spot with Salty Vixen" A podcast that is dedicated to Love, Sex & Relationships. I know that the digital dating world is not easy. We all have our stories to share, especially about the Red Flags that we constantly spread awareness.
